FREE RIDE Let our guides introduce you to the pleasure of untracked snow. This is your chance to enjoy the maximum amount of fun with the minimum amount of effort. There is a huge variety of terrain in the Alpes Vaudoises area to explore.

ALPINE SKIING Tucked in a captivating Alpine nook, the southeast corner of Vaud is essentially ski country, including in summer when the glacier in Les Diablerets, the flagship resort, comes into its own.

SKI TOURING That sounds pretty amazing, and it is more than just the wonderful feeling that one experiences, the freedom, the space, the athletic kick, the luck of being the first to make a trace into the untouched sparkling powder snow.
